

SRI SHANKARA CANCER HOSPITAL AND RESEARCH CENTRE

Mobile Application — Privacy Policy

Last Updated: **28-05-2026**

1. Introduction and Scope

Sri Shankara Cancer Hospital and Research Centre (“SSCHRC”, “the Hospital”, “we”, “us” or “our”) is committed to protecting the privacy and personal data of every individual who uses our mobile application (the “App”). This Privacy Policy explains what personal data we collect through the App, why we collect it, how we use, store, share, retain and protect it, and the rights and choices available to you in relation to your personal data.

This Policy is published in compliance with the **Digital Personal Data Protection Act, 2023** (“DPDP Act”) and the **Digital Personal Data Protection Rules, 2025** (“DPDP Rules”), read with the Information Technology Act, 2000 and other applicable laws of India.

For the purposes of the DPDP Act, the Hospital acts as the **Data Fiduciary** — the entity that determines the purpose and means of processing your personal data — and you, the user, are the **Data Principal**, being the individual to whom the personal data relates. Where you provide personal data on behalf of another person (for example, as the parent, guardian or caregiver of a patient), you confirm that you are authorised to do so.

Applicability. This Policy applies to your use of the App and to any services, features, content, registration and communications offered through it. By creating an account, accessing or continuing to use the App, you confirm that you have read and understood this Privacy Policy. If you do not agree with it, please do not use the App.

2. Key Definitions

The following terms carry the meaning set out below. Terms not defined here have the meaning assigned to them under the DPDP Act and DPDP Rules.

Term	Meaning
Personal Data	Any data about an individual who is identifiable by or in relation to such data.
Processing	Any operation performed on personal data — such as collection, recording, storage, use, sharing, disclosure or erasure — whether automated or not.
Data Fiduciary	The person or entity (here, the Hospital) that determines the purpose and means of processing personal data.
Data Principal	The individual to whom the personal data relates, including, in the case of a child, the parent or lawful guardian, and in the case of a person with disability, the lawful guardian.

Term	Meaning
Data Processor	Any person who processes personal data on behalf of the Hospital under a valid contract (for example, a cloud hosting or analytics provider).
Consent	Your free, specific, informed, unconditional and unambiguous agreement, given through a clear affirmative action, to the processing of your personal data for a specified purpose.
Board	The Data Protection Board of India established under the DPDP Act.
Child	An individual who has not completed eighteen (18) years of age.

3. The Personal Data We Collect

Depending on how you use the App, we may collect the following categories of personal data. We collect only such data as is necessary for the purposes described in this Policy.

Category	Examples of data collected
Identity & contact data	Name, age, date of birth, gender, postal address, mobile number and email address.
Account & login data	Username, password (stored in encrypted form), unique patient/registration identifier and account preferences.
Health & medical data	Medical history, diagnosis, treatment and clinical records, prescriptions, laboratory and imaging reports, appointment records, and physical, physiological or mental health information necessary to provide care.
Appointment & service data	Details of bookings, consultations, queries raised, and your interactions with our staff and services through the App.
Device & technical data	Device type and model, operating system, app version, IP address, device identifiers, language settings and crash/diagnostic logs.
Usage data	Features accessed, pages viewed and actions taken within the App, used to operate and improve the service.

Payment information. We do **not** store your bank account, debit card or credit card details within the App. Where the App offers online payments, these are processed by authorised third-party payment service providers in accordance with their own security standards.

4. How We Collect Your Personal Data

We collect personal data through the following means:

- Directly from you, when you register, create an account, complete forms, book or attend appointments, upload documents, or communicate with us through the App;

- From your interactions with our hospital staff and care teams, where such information is recorded as part of your treatment and entered into our systems;
- Automatically, through the App and your device, such as technical, device and usage data described above; and
- From authorised third parties, such as referring physicians or diagnostic partners, where you have consented to such sharing or where it is permitted by law.

5. Purposes for Which We Process Your Personal Data

We process your personal data only for clear and lawful purposes that are made known to you at or before the time of collection. These purposes include:

Purpose	What this involves
Patient care & treatment	Registering you, scheduling and managing appointments, providing diagnosis, treatment, follow-up and continuity of care.
Account management	Creating and maintaining your account, authenticating you, and enabling the features you request.
Communication	Sending appointment reminders, reports, service updates and responses to your queries.
Service improvement	Operating, maintaining, securing and improving the App and our services, including diagnostics and troubleshooting.
Legal & regulatory compliance	Meeting our obligations under medical, public-health, tax and other applicable laws, and responding to lawful requests by authorities or courts.
Safety & emergencies	Acting in a medical emergency, or to protect your vital interests or the health and safety of others.

Purpose limitation. We will not use your personal data for any new purpose that is incompatible with the purposes set out above without first informing you and, where required, obtaining your consent.

6. Legal Basis for Processing

Under the DPDP Act, we process your personal data on one of the following lawful bases:

1. **Your consent** — given freely and through a clear affirmative action, for the specific purposes notified to you (for example, when you register or upload a document); and
2. **Certain legitimate uses recognised under the DPDP Act** — including where you have voluntarily provided your data for a specified purpose, for the provision of medical treatment or health services, in a medical emergency involving a threat to life or to your immediate health, during an epidemic or outbreak of disease, or to comply with a legal obligation, judgment or order.

Where we rely on your consent, you may withdraw it at any time as described in Section 7. Withdrawing consent does not affect the lawfulness of processing carried out before withdrawal, and certain processing (such as the retention of medical records required by law) may continue even after withdrawal.

7. Notice, Consent and Withdrawal of Consent

Notice. Before or at the time we seek your consent, we provide you with a clear and accessible notice, in plain language, describing the personal data we wish to collect, the purpose of processing, how you can exercise your rights, how you can withdraw consent, and how you can make a complaint to the Board.

Consent. Your consent is sought through a clear affirmative action within the App (for example, by selecting an “I agree” option). Your consent is limited to the personal data necessary for the specified purpose.

Withdrawal. You may withdraw your consent at any time through the App settings, or by contacting our Data Protection Officer using the details in Section 16. We will make the process of withdrawing consent as easy as it was to give it. On withdrawal, we will stop processing your personal data for the relevant purpose within a reasonable time, unless continued processing is required or permitted by law.

8. Personal Data of Children and Persons with Disabilities

Children. Where the App is used to register or manage care for a child (an individual under eighteen years of age), we process the child’s personal data only after obtaining **verifiable consent from the child’s parent or lawful guardian**. We take reasonable steps to verify that the person providing consent is in fact the parent or lawful guardian and is an adult.

We do not undertake any processing of a child’s personal data that is likely to cause a detrimental effect on the well-being of the child, and we do not carry out tracking, behavioural monitoring or targeted advertising directed at children.

Persons with disabilities. Where personal data relates to a person with disability who has a lawful guardian, we process such data on the basis of verifiable consent provided by that lawful guardian, in accordance with the applicable law.

9. Disclosure and Sharing of Personal Data

We do not sell, rent or trade your personal data. We do not share your personal data with third-party marketers, and we will not use it for any promotional activity, without your explicit consent. We may disclose your personal data only in the following circumstances:

- With members of our care teams and staff who need it to provide you with services;
- With Data Processors who provide services to us (such as secure hosting, communication or analytics providers) under contracts that require them to protect your data and use it only on our instructions;

- Where required by law, regulation, court order, or a lawful request from a government or regulatory authority;
- Where necessary to protect the rights, safety and property of the Hospital, our patients, staff or the public; and
- With other persons or entities where you have specifically directed or consented to such sharing.

10. Transfer of Personal Data Outside India

Your personal data is ordinarily stored and processed in India. If, in the course of providing the App or related services, your personal data is transferred to or processed in a country or territory outside India, we will do so only in accordance with the conditions specified by the Central Government under the DPDP Act and only with appropriate safeguards in place.

11. Data Retention and Deletion

We retain your personal data only for as long as is necessary to fulfil the purposes for which it was collected, or for as long as required to meet legal, medical, regulatory and operational obligations — whichever is longer. Medical and clinical records are retained for the minimum periods prescribed under applicable medical record-retention laws and regulations, even where you request deletion.

When personal data is no longer required and is not subject to any legal retention obligation, we will delete or anonymise it.

Your right to request deletion. You may request deletion of your personal data at any time by:

- sending an email to queries@sschrc.org ; or
- contacting our support team through the App.

On receiving a valid request, we will delete or anonymise the personal data within **15** working days, unless retention is required or permitted under applicable law (for example, statutory medical-record retention requirements). Where we are required to retain certain records, we will inform you and delete the remaining data that is not subject to such requirements. Once deleted, your data will no longer be accessible within the App.

Where the App keeps records or logs of processing, such logs are retained for the minimum period required under the DPDP Rules and applicable law.

12. Security Safeguards

We implement reasonable security safeguards to protect your personal data against unauthorised access, use, disclosure, alteration, loss or destruction, and to preserve its confidentiality, integrity and availability. These measures include, as appropriate:

- Encryption of data in transit and at rest, and other measures such as tokenisation where suitable;
- Role-based access controls, so that data is accessible only to authorised personnel on a need-to-know basis;

- Secure authentication and password protection for user accounts;
- Logging, monitoring and periodic review or audit of access to personal data;
- Secure backup and recovery arrangements; and
- Contractual obligations on our Data Processors to maintain equivalent safeguards.

While we take these steps to protect your personal data, no method of electronic transmission or storage is completely secure. We therefore cannot guarantee absolute security, but we are committed to acting promptly and responsibly in the event of any security incident.

13. Personal Data Breach

In the event of a personal data breach, we will take prompt steps to assess and contain it. In accordance with the DPDP Act and DPDP Rules, we will:

- notify each affected Data Principal, without undue delay, through the App or other registered communication channels, describing the nature and likely consequences of the breach, the measures we have taken, and the steps you may take to protect yourself; and
- notify the Data Protection Board of India within the timelines prescribed under the DPDP Rules, and provide follow-up information on our investigation and remedial actions.

14. Your Rights as a Data Principal

Subject to the DPDP Act, you have the following rights in relation to your personal data:

Right	What it means
Right to access	To obtain a summary of the personal data we process about you and the processing activities undertaken.
Right to correction	To have inaccurate or misleading personal data corrected, and incomplete data completed or updated.
Right to erasure	To request deletion of your personal data, subject to legal retention requirements.
Right to withdraw consent	To withdraw consent previously given, at any time and as easily as it was given.
Right to grievance redressal	To have your complaints addressed through our grievance redressal mechanism (see Section 15).
Right to nominate	To nominate another individual to exercise your rights under the DPDP Act in the event of your death or incapacity.

15. How to Exercise Your Rights and Grievance Redressal

You may exercise any of the rights described above, or raise a grievance, by contacting us through the App or by writing to our Data Protection Officer / Grievance Officer using the details in Section 16.

We will verify your identity before acting on your request, and we will respond to and resolve requests and grievances within a reasonable period and within the timelines prescribed under applicable law.

16. Data Protection Officer / Grievance Officer

For any questions about this Privacy Policy, to exercise your rights, or to raise a grievance about how we handle your personal data, please contact:

Contact point	Details
Name	Karthik Prakash
Designation	IT Incharge
Email	queries@sschrc.org
Phone	080-4648 1000
Postal address	Sri Shankara Cancer Hospital and Research Centre, 1st Cross, Shankara Math Premises, Shankarapuram, Basavanagudi, Bengaluru, Karnataka 560004

17. Right to Complain to the Data Protection Board

If you are not satisfied with our response to your grievance, you have the right to register a complaint with the Data Protection Board of India, in the manner and within the timelines provided under the DPDP Act and DPDP Rules.

18. Device Permissions, Cookies and Analytics

The App may request permissions on your device to provide certain features. You can manage or revoke these permissions at any time through your device settings, though doing so may limit some functionality. Such permissions may include:

- Camera and photo/file access — to let you upload reports, prescriptions or documents;
- Notifications — to send appointment reminders and service updates;
- Storage — to save documents you choose to download; and
- Location— only where necessary for a specific feature you have enabled.

The App may use cookies or similar technologies and analytics/crash-reporting tools to operate, secure and improve the service. Where required, we will seek your consent for non-essential use of such technologies.

19. Changes to this Privacy Policy

We may update this Privacy Policy from time to time to reflect changes in law, technology or our practices. When we make material changes, we will update the “Last Updated” date above and, where appropriate, notify you through the App or other means. We encourage you to review this Policy

periodically. Your continued use of the App after an update indicates your acceptance of the revised Policy, subject to any consent we are required to obtain afresh.

20. Contact Us

If you have any questions or concerns about this Privacy Policy or our handling of your personal data, please contact us at queries@sschrc.org , or write to us at Sri Shankara Cancer Hospital and Research Centre, **1st Cross, Shankara Math Premises, Shankarapuram, Basavanagudi, Bengaluru, Karnataka 560004**
