CAREER OBJECTIVE

“To obtain a challenging position in a growth-oriented organization where I can utilize my technical and analytical skills to contribute to the team’s success, while continuously learning and growing professionally.”

EDUCATION

Master of computer Application (Data science with AIML) Presidency college	Pursuing 2024-2025
Bachelor of Computer Application Seshadripuram college	8.55 CGPA 2021 - 2024
Pre university college(PUC) Karnataka PUC Board	81.00% 2019 - 2021
Secondary School Leaving Certificate (SSLC) Karnataka Board	86.83% 2018 - 2019

PROJECTS

- **Mini-project on “Visitor Management System”**: The proposed project is a Visitor Management system to streamline of tracking and managing visitors in a facility, ensuring security and efficiency and also visitor check-in\checkout, visitor logs ,real time notifications and reporting.
- **Mini-project on “Pneumonia Detection Using Machine Learning”**: I have used a machine learning model to detect pneumonia from medical images (e.g., X-rays), aimed at assisting healthcare professionals in early diagnosis. Included image preprocessing, model training, evaluation, and deployment to provide accurate detection and classification .
- **Academic Project: City Navigation System (Graph Algorithms)** :Developed a Python-based navigation system using graph data structures for route planning. Implemented DFS, BFS, and Dijkstra’s Algorithm to compute and compare shortest paths. Built a Tkinter GUI and processed CSV data with Pandas to visualize routes and analyze performance.

CERTIFICATIONS

- **Cryptography** – Mind Luster
- **Python Basic** – Great Learning Academy
- **Deep Learning with Python CNN, ANN & RNN**-Coursera
- **Fundamentals of Data Warehousing** - Coursera

TECHNICAL SKILLS

- **Languages:** Python, C Programming
- **Web :** HTML , CSS
- **Tools:** MS word, VS code , MySQL, Excel

ACHIEVEMENTS

- **Best Speaker Award** – Received in the Leadership Development Program held at Presidency college, Bangalore on 18-19 of November 2024.
- Lead the Deep learning team as **Team Head** during **OpenAI day 2023, organized by Samsthitha Coding Club at** Seshadripuram college.
- **Head of Research Club**, Samsthitha Coding club , Seshadripuram college.
