

Post Applied For:-

Sameer Maharana

Fathers Name- Late Harihar Maharana

Mothers Name- Late Sabita Maharana

D. O. B : 19- 09 – 1991

Address - Contractors Colony, Sector – 6, Rourkela, Sundargarh, Odisha

Cont No- +91-7377239611

Email- sameer.maharana64@gmail.com

EXPERIENCE

1.The Regency Inn (Back Office & Front Office) 2013 – 2015

Joined as a Cashier in hotel The Regency Inn, Rourkela from June 2013 to March 2015. Work involves- Data entry (Industrial Development Software), stock and balance sheet maintenance, Front office Customer relationship.

2.CSCMi-MRI Project NYU (Project Assistant) 2015 – 2017

A project based on scanning of brain through MRI scanning procedure of malaria patients, conducted by New York University in Ispat General Hospital, Rourkela. Joined in June 2015 and completed till the project completed June 2017.

3.IPCA / HCQS/ Diabetic Phase – IV Study (Project Co-ordinator) 2016- 2018

Working in a drug trial on type 2 diabetic uncontrolled patients in IDBU research laboratory, Ispat general hospital, Rourkela, conducted by IPCA Laboratories Ltd, India from October 2016 to end of the project 2018.

4.CSCMi-MRI Project NYU (Laboratory Technician) 2017 – 2018

A project based on scanning of brain through MRI scanning procedure of malaria patients, conducted by New York University in Ispat General Hospital, Rourkela. Starting from October 2017 to September 2018.

5.CSCMi-MRI Project NYU (Laboratory Technician) 2018 – 2020

The project based on scanning of brain through MRI scanning procedure of malaria patients, conducted by New York University in Ispat General Hospital, Rourkela. Starting from September 2018 to March 2020.

6.Covid-19 Test Laboratory, Ispat General Hospital (Senior Laboratory Technician) 2020-2022

When pandemic hit on 2019 Grade 3 virology laboratory established in Ispat General Hospital in 2020, Rourkela.

7.CSCMi-MRI Project NYU (Senior Laboratory Technician) 2020 – 2024

The project based on scanning of brain through MRI scanning procedure of malaria patients, conducted by New York University in Ispat General Hospital, Rourkela. Starting from April 2020 to till date.

8. Senior Lab Technician cum Asst. Lab Co-ordinator 2025-

at the Center for complex malaria in India (CSCMi)- a NIH funded project at Community Welfare Society Hospital, Rourkela, Odisha since January 2025 (continuing).

EDUCATION	YEAR	PERCENTAGE & SUBJECT
MSC	2025	CHEMISTRY
DMLT	2017	78%
BSc (Chemistry)	2012	53 % Honor with distinction.
CHSE	2009	39% PCMIT
HSC	2007	71% ALL Subjects

EXPERTISE

1. WET LAB -

a. Human blood sample processing for various downstream applications -

- i. PCR & Real Time PCR Assays for Malaria Parasite Molecular Diagnostics.
- ii. Virology sample preparation.
- iii. Virology RNA Extraction.
- iv. Master-mix Preparation.
- v. Plasma separation from whole blood by centrifugation.
- vi. WBC (Leukocyte) buffy coat collection.
- vii. Packed RBC separation
- viii. Trizol sample preparation for RNA extraction
- ix. Genomic DNA extraction from whole blood/ WBC/ PRBC

b. Preservation of sample-

- i. Labeling, cataloging of samples (Whole blood, plasma, WBC, RBC, CSF, DNA)
- ii. Storage and preservation of samples in appropriate temp(2-8 °C, -20 °C, -80 °C and liquid nitrogen)

c. Malaria microscopy-

- i. Malaria parasite diagnosis (Thick and thin blood smear, Giemsa / Leishmann Staining , Pf/ Pv/ Pm identification)
- ii. Identification of specific parasite stages (Ring, Trophozoite Early/ late, Schizont, gametocyte male/ female)
- iii. Parasitemia calculation using WBC and RBC method.

d. Analytical tests

- i. Hemoglobin estimation (Hemocue)
- ii. Haematocrit estimation using capillary tube method
- iii. Plasma glucose estimation
- iv. Plasma lactate (Lactate Pro)
- v. Urine examination by Dip-stick and Slide method.
- vi. Covid Sample Testing.

2. Dry Lab –

a. Data entry – Offline (MS excel) and Online databases

b. Online database Handling

- i. Redcap (Malaria database of NYU, USA)
- ii. Neuro india(MRI database of MSU, USA)
- iii. Industrial Development Software (IDS V2)

c. Record Keeping, data retrieval

- i. In MS word format
- ii. Powerpoint slides
- iii. Basic charts and figures
- iv. Basic statistical operation

3. Laboratory Management –

- a. Instrument handling and operating
 - i. Micro pipette, Centrifuge, Autoclave, Microfuge, Bio-safety Cabinet etc.
- b. Logger entry and Updates
 - i. Refrigerator Temperature Logger
 - ii. Sample log (In/ Out)
- c. Reagents and Chemical handling
 - i. Cataloging
 - ii. Shorting of chemicals
 - iii. Stock register maintenance.

4. Accounts and Finance –

- a. Generating Note sheet and Orders
- b. Fund balance sheet maintenance.
 - i. Budgetary quotation/ advance
 - ii. Budgetary expenditure
- c. Incoming and outgoing fund management.

5. Correspondence with Investigator

- a. Problems, solutions and new ideas for development.

GCP TRAINING PROGRAMME

Mahidol Oxford University

Good Clinical Practice (GCP) Training from Mahidol-Oxford Tropical Medicine Research Unit (MORU), at Ispat General Hospital, Rourkela on date 28th October 2016.

AIIMS, Bhubaneswar

Two days of workshop about Good Clinical Practice Program organized by All India Institute of Medical Science on 4th and 5th July 2017, at AIIMS, Bhubaneswar.

Date-
Place- Rourkela
