PROFESSIONAL SUMMARY

Motivated B.Pharm graduate with hands-on experience in pharmaceutical production, quality control, and ADME analysis across two industry internships. Proficient in drug information management, dosage calculations, medication dispensing principles, and laboratory analytical techniques. Seeking a hospital pharmacy or clinical pharmacy role where pharmaceutical care, patient medication safety, and interdisciplinary collaboration can drive positive patient outcomes.

INTERNSHIP EXPERIENCE

Pharmacy Intern — Production & Quality Control

Jul 2025 – Aug 2025

Prim Drugs and Pharmaceuticals, Paranthur, Kanchipuram

- Boosted production line efficiency by contributing to documentation accuracy and data entry, reducing batch record errors across all reviewed batches through systematic GMP-compliant record keeping.
- Supported quality control workflows by conducting in-process checks on pharmaceutical formulations, ensuring 100% batch compliance with established quality assurance standards.
- Strengthened cross-functional communication by coordinating between production and QC teams, facilitating timely resolution of documentation discrepancies for uninterrupted drug manufacturing.

Pharmacy Intern — ADME Analysis & Manufacturing

Jan 2026 – Feb 2026

Best Care Formulation, Thirubhuvanai, Pudukkottai

- Enhanced understanding of drug absorption and bioavailability by performing ADME (Absorption, Distribution, Metabolism, Excretion) analysis on formulations, applying findings to improve formulation decisions.
- Contributed to manufacturing of oral liquid dosage forms — including syrups and dry syrups — by following SOPs and GMP guidelines, supporting zero-deviation batch outcomes.
- Gained proficiency in topical formulation manufacturing (soaps, lotions, ointments) by participating in full production cycles, applying pharmaceutical compounding and quality assurance principles throughout.

Pharmacy Assistant (Part-Time)

~2025 (6 months)

RS Medical Shop, Walajapet

- Improved patient medication adherence counseling by providing accurate drug information and dosage guidance to retail customers, demonstrating strong clinical communication and patient-care skills.
- Maintained inventory accuracy and medication dispensing records for a high-volume community pharmacy, applying stock management and pharmacovigilance awareness in a real-world healthcare setting.

EDUCATION

Bachelor of Pharmacy (B.Pharm)

2021 – 2025

GRT Institute of Pharmaceutical Education and Research / TN Dr. M.G.R. Medical University

GPA / Percentage: 77.5%

Higher Secondary Certificate (HSC)

Gangaadaraa Matriculation Higher Secondary School

Score: 85.3%

2020 – 2021

Secondary School Leaving Certificate (SSLC)

Gangaadaraa Matriculation Higher Secondary School

Score: 83.8%

2018 – 2019

RESEARCH PROJECT

In Silico Molecular Docking and ADME Evaluation of Imlunestrant and Repurposed Drug Nitroxoline Compared with Tamoxifen for Breast Cancer Therapy

- Performed computational molecular docking using AutoDock to compare binding affinity of Imlunestrant and Nitroxoline against estrogen receptor targets vs. standard drug Tamoxifen.
- Predicted drug-likeness and pharmacokinetic properties using SwissADME and ProTox; conducted ADME profiling via pkCSM to evaluate clinical translatability.
- Identified Nitroxoline as a viable repurposed drug candidate based on docking interaction scores and ADME profile; recommended future in vitro cell-line and in vivo animal validation studies.

CORE COMPETENCIES & SKILLS

- | | |
|---|--|
| • Pharmaceutical formulation & compounding | • GMP / SOP compliance |
| • Drug information & dosage calculations | • Laboratory & analytical techniques |
| • ADME analysis & pharmacokinetics | • Pharmacovigilance awareness |
| • Medication dispensing & patient counseling | • Clinical documentation & data entry |
| • Quality control & quality assurance (QC/QA) | • Patient safety & medication error prevention |

TECHNICAL TOOLS

AutoDock | SwissADME | ProTox | pkCSM | MS Office / Data Entry Systems
