Professional Summary

Results-driven and detail-oriented customer experience with 4 years of progressive experience in healthcare administration at Mumbai's top-ranked hospital. Proven track record of operational excellence, evidenced by being named Employee of the Year 2024 and 8 consecutive Employee of the Month awards. Expert in patient engagement, bed management, and cross-functional coordination. Backed by 2 years of IT troubleshooting experience, bringing a unique technical edge to healthcare administration and problem-solving.

Core Competencies

- Healthcare Operations & Patient Relationship Management
- Cross-Functional Collaboration & Process Optimization
- Web-Based Application Support & Training
- Appointment Coordination & Records Management
- International Technical Support & Troubleshooting
- Client-Focused Communication & Escalation Management
- Helpdesk Administration & Team Enablement

Professional Experience

- **Sir H.N. Reliance Foundation Hospital, Mumbai**

Patient Service Associate / Helpdesk & Application Support Specialist

📍 Mumbai | 📅 February 2022 – March 2026

- Spearhead frontline patient service operations at one of Mumbai's leading tertiary care hospitals, ensuring seamless patient flow and support.

- Provide Tier-1 and Tier-2 support for in-house web-based healthcare applications including billing, registration, and records management systems.
- Conduct structured onboarding and training sessions for new hires and internal teams to ensure optimum utilization of digital platforms.
- Collaborate with IT and clinical departments to resolve internet performance issues and improve system responsiveness.
- Assist patients and attendants with complex service escalations, acting as a liaison between administrative and clinical units to expedite resolution.
- Proactively identify workflow bottlenecks and contribute to process improvement initiatives.

• **Concentrix**

Senior Technical Consultant

📍 Bangalore | 📅 March 2020 – September 2021

- Delivered real-time technical support to U.A.E.-based clientele, specializing in connectivity diagnostics and network infrastructure (Routers, Modems, Hubs).
- Diagnosed and resolved latency and throughput issues, leading to improved client satisfaction scores.
- Maintained comprehensive documentation of interactions and escalated unresolved issues to Level 2 support.
- Played a key role in minimizing downtime and achieving daily SLAs in a high-volume environment.
