anchusibu2001@gmail.com

mangalathu puthen veedu
edamon-kollam,kerala

SKILLS

- Ability to carryout various radiation therapy techniques with high energy machines
- Skilled in simulating patients
- Radiation therapy techniques and imaging knowledge
- Ability to justify radiation exposure,undertake preassessment checks and administer contrast
- Time management
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- Malayalam(fluent)
- Hindi (Basic)
- Tamil (Intermediate)

PROFILE

Highly skilled and detailed oriented radiation therapist with experience in delivering accurate and effective radiation treatment.Proven ability to operate high energy machines with proper patient positioning and interpersonal skills.Dedicated to ensuring high level of patientcare,safety and comfort throughout the treatment process

WORK EXPERIENCE

2025 JUNE- PRESENT

○ KK PATEL SUPERSPECIALITY HOSPITAL,BHUJ ,GUJARAT RADIATION THERAPY TECHNOLOGIST

- Experienced in varian truebeam svc with 120 MLC (6,10 & 15 MV Photons and multiple electron energies) KV and MV imaging system with 2D and CBCT technology
- Experienced in different treatment techniques **IGRT,VMAT,IMRT,3DCRT,SRS,SRT &RPM**
- Ability to handle ARIA platform
- Taking consent from patient for simulation and treatment
- Scheduling and assisting daily machine QA with proper maintenance of machine log books.
- Experienced in CT based simulation-GE revolution EVO(64 slice)
- Online and offline verification of image and assessment for quality treatment delivery
- Effective collaboration with multidisciplinary teams including Oncologist,Physicist,Nurses and other supporting staffs to coordinate patient care and ensure optimal outcomes
- Maintaining updated knowledge through continuous education and practise

MALABAR CANCER CENTRE THALASSERY

2024 - 2025

Internship

Department of Radiation Oncology and Department of imageology

- Simulating all patients prior to planning using different immobilisation devices and administering prescribed dose of radiation to specific body parts using radiation equipments
- Competent in CT simulation and treatment including 3DCRT,IMRT,SBRT,SRS,TBI and ARC THERAPY.
- Responsible to check dosimetry plans before treatment to confirm accuracy to any radiation procedure
- Experience in making irregular electron cutout,wax bolus,extremity immobilisation,thermoplastic moulds and vaccum cushions

MACHINES HANDLED

- Linear accelerator (Elekta Versa HD,Varian Clinac ix)
- Telecobalt(Theratron Equinox-Co60)
- CT simulator(GE Optima 580c 16 slice 4DCT)
- Radiotherapy simulator-Panacea imaging
- HDR Brachytherapy(Flexitron)
- Mouldroom(Electron irregular cutout,wax bolus,extremity immobilisation,Thermoplastic moulds,Vaccum cushions)

EDUCATION

2021-2025

MALABAR CANCER CENTRE

BSC MEDICAL RADIOLOGICAL TECHNOLOGY

2017-2019

GOVT.HIGHER SECONDARY SCHOOL,PUNALUR

HIGHER SECONDARY EDUCATION

2014-2017

EDAMON HIGH SCHOOL

HIGH SCHOOL EDUCATION

CONFERENCE ATTENDED

Participated in ISRT State Conference 2022 held on 21st and 22nd May at Mahe

Participated in ISRT State Conference 2023 held on 6th and 7th May at Mascot Hotel ,Thiruvananthapuram

PROJECT

Role of systemic inflammatory response index as an independent prognostic biomarker in predicting recurrence and survival outcome among clinical stage I-III breast cancer patients

DECLARATION

I hereby declare that all the above mentioned details and particulars are true and accurate to the best of my knowledge and belief
